About the program

The Covid-19 pandemic has brought the life to standstill. This has severely hampered the education system due to lockdown. The future education system will try to adopt the system which can use unconventional methods of teaching and learning. Video lectures and tutorials are one of the most useful method. But creating educational videos with appropriate content and quality is skillful work. There are several tools and methods available to create impactful education videos. The current training program aims towards imparting such skills to the teaching fraternity. These skillful teaching fraternities will be able to develop their own educational videos and distribute to the learners through appropriate online media for effective teaching and learning. Mode (Online): Video lectures, Hands-on, Discussion, Assignments, Tests Participants will be issued E-Certificates on successful completion of Assignments and Tests.
